SECTION 5: CHATBOT TRAINING Q&A DATASET

Q1: What is the difference between a grievance and a formal complaint escalation?

A: A grievance is typically an initial concern raised through standard forms. A complaint escalation is a formal process used when an initial concern is not resolved within the specified timeline or when the resolution is unsatisfactory, following the school's structured Escalation Matrix.

Q2: Who should I contact first if I have a concern about my child's academic progress?

A: The initial point of contact for academic concerns is the Class Teacher. If not resolved within 3 working days, it can be escalated to the Head of Department (HOD).

Q3: How long does the school take to resolve a Level 2 (Admin) complaint?

A: Level 2 complaints (e.g., transport or fees) typically have a resolution timeline of 7 working days, with an initial acknowledgement provided within 48 hours.

Q4: What is the final authority for safety-related complaints?

A: For safety and infrastructure complaints (Level 4), the final authority is the Board Trustee, following reviews by the Safety Officer and Admin Manager.

Q5: What happens after a complaint is marked as 'Closed'?

A: Once closed, the school issues a formal Closure Letter, logs all documentation in the ERP, and sends a feedback survey to the complainant to ensure the resolution was satisfactory.

Q6: Can I escalate a complaint directly to the Principal?

A: While the Principal is the chief authority, the school encourages following the Escalation Matrix (starting with teachers or coordinators) to ensure a systematic review. Direct escalation to the Principal is typically reserved for Level 3 or 4 matters that remain unresolved.
