Section 3	Attendance Device Manuals	4
Section 4	CCTV Management Guides	5
Section 5	Vendor Services Q&A Knowledge Base	6

SECTION 1 · SCHOOL ERP VENDOR MANUALS

1.1 ERP System Overview

ABC International School uses a comprehensive Enterprise Resource Planning (ERP) system for managing all administrative and academic operations. The system integrates student information, fee management, attendance, academics, human resources, and inventory management into a unified platform. The ERP vendor is Edusmart Solutions Pvt. Ltd., a leading provider of school management software in India.

1.2 ERP System Details

ERP Vendor Information

Vendor Name: Edusmart Solutions Pvt. Ltd. | **Product:** EduPro School Management System v4.2 | **Implementation Date:** June 2023 | **License Type:** Multi-user Enterprise License | **Server Location:** Cloud-based (AWS) | **Support Plan:** 24/7 Premium Support

1.3 ERP Core Modules

Student Information Management Module

Features: Student registration, profile management, academic history, parent/guardian information, emergency contacts, medical records

Access Level: Admissions team, Class teachers, Principal

Key Functions: Add/edit student records, generate reports, track student progress, manage transfers

Fee Management Module

Features: Fee structure setup, invoice generation, payment tracking, receipt generation, fee reminders, late fee calculation

Access Level: Finance team, Principal, Accountant

Key Functions: Generate fee invoices, track payments, manage discounts, generate financial reports

Attendance Management Module

Features: Daily attendance marking, attendance reports, leave management, attendance analytics

Access Level: Class teachers, HOD, Principal

Key Functions: Mark attendance, generate reports, track leave, send SMS alerts

Academic Management Module

Features: Curriculum management, exam scheduling, marks entry, result generation, report cards

Access Level: Teachers, HOD, Principal, Admissions

Key Functions: Create exam schedules, enter marks, generate report cards, track academic performance

Human Resources Module

Features: Staff information, salary management, leave tracking, performance evaluation, payroll

Access Level: HR team, Principal, Finance

Key Functions: Manage staff records, process payroll, track leave, generate HR reports

1.4 ERP Access & Login

- Web-based access through <https://erp.abcschool.edu.in>
- Mobile app available for iOS and Android
- Username and password provided by IT Department
- Two-factor authentication enabled for security
- Password reset available through email or SMS

1.5 ERP Vendor Support

Support Type	Contact	Response Time
Technical Support	support@edusmart.in +91-22-XXXX-XXXX	30 minutes (Critical), 2 hours (High), 4 hours (Medium)
Email Support	support@edusmart.in	Within 24 hours
On-site Support	By appointment	Within 48 hours
Training	training@edusmart.in	Scheduled sessions

SECTION 2 · TRANSPORT MANAGEMENT SOFTWARE MANUALS

2.1 Transport Software Overview

ABC School uses a dedicated Transport Management System to manage school buses, routes, student pickups, driver assignments, and real-time tracking. The system integrates with GPS technology to provide live location updates to parents and administrators.

2.2 Transport Software Details

Transport Software Vendor Information

Vendor Name: SafeRoute Technologies | **Product:** SafeRoute Bus Management System v3.1 | **Implementation Date:** August 2023 | **Buses Tracked:** 12 buses | **GPS Devices:** Installed in all buses | **Support Plan:** 24/7 Emergency Support

2.3 Transport Software Features

Bus Route Management Features: Route creation, stop management, route optimization, distance calculation, time estimation Access Level: Transport coordinator, Principal Key Functions: Create/edit routes, assign stops, optimize routes, view route details
Student Pickup & Dropoff Tracking Features: Real-time GPS tracking, pickup/dropoff notifications, student boarding status, route deviations alert Access Level: Parents, Transport team, Principal Key Functions: Track bus location, receive notifications, view pickup status, report issues
Driver & Vehicle Management Features: Driver information, vehicle details, maintenance records, driver performance tracking, incident reporting Access Level: Transport coordinator, Principal Key Functions: Manage driver records, track vehicle maintenance, monitor driver behavior, report incidents
Parent Mobile App Features: Real-time bus tracking, pickup/dropoff notifications, driver contact, route information, trip history Access Level: Parents/Guardians Key Functions: Track bus, receive alerts, contact driver, view route, check trip details

2.4 Transport Software Access

- Web portal: <https://transport.abcschool.edu.in>
- Parent mobile app: SafeRoute (iOS/Android)
- Staff dashboard for transport coordinators
- Real-time GPS tracking on all buses
- SMS and push notifications for alerts

2.5 Transport Software Support

Support Type	Contact	Availability
Emergency Support	+91-98765-43210 (24/7 Hotline)	24/7 (GPS/Tracking issues)
Technical Support	support@saferoute.in	9 AM - 6 PM (Mon-Fri)
On-site Support	By appointment	Within 24 hours

SECTION 3 · ATTENDANCE DEVICE MANUALS

3.1 Attendance System Overview

ABC School uses a biometric attendance system with fingerprint and facial recognition technology for accurate and efficient attendance tracking. Devices are installed at all entry/exit points and in classrooms. The system integrates with the ERP for real-time attendance updates.

3.2 Attendance Device Details

Attendance Device Vendor Information

Vendor Name: BioSecure Systems India | **Product:** BioSecure Pro Attendance Terminal v2.5 | **Devices Installed:** 8 terminals (Main gate, Secondary gate, Classrooms) | **Technology:** Fingerprint + Facial Recognition | **Support Plan:** Annual Maintenance Contract

3.3 Attendance Device Features

Fingerprint Recognition Module

Features: Fast fingerprint scanning, high accuracy (99.9%), multi-finger enrollment, anti-spoofing technology

Operation: Place finger on scanner, wait for beep, attendance recorded automatically

Enrollment: 10 fingerprints per person for redundancy

Facial Recognition Module

Features: Contactless recognition, works with masks, liveness detection, temperature screening

Operation: Face the camera, recognition within 1 second, attendance recorded

Accuracy: 98% accuracy rate in various lighting conditions

Attendance Device Display

Features: 7-inch touchscreen display, real-time attendance count, device status, temperature display

Interface: User-friendly, multilingual support (English, Hindi, Marathi)

Alerts: Visual and audio alerts for successful/failed recognition

3.4 Attendance Device Operation

- Devices are active from 7:00 AM to 4:00 PM daily
- Automatic backup to cloud every hour
- Offline mode with local storage (up to 10,000 records)
- Real-time sync with ERP system
- Daily reports generated automatically

3.5 Attendance Device Troubleshooting

Issue	Solution
Fingerprint not recognized	Clean finger, ensure proper placement, try alternate finger
Facial recognition fails	Remove glasses/mask, ensure good lighting, move closer to camera
Device offline	Check network connection, restart device, contact IT support
Display not responding	Restart device, check power supply, contact vendor support

3.6 Attendance Device Support

Support Type	Contact	Response Time
Technical Support	support@biosecure.in +91-22-XXXX-XXXX	2 hours
On-site Maintenance	maintenance@biosecure.in	Within 24 hours
Annual Maintenance	Scheduled quarterly	Preventive maintenance

SECTION 4 · CCTV MANAGEMENT GUIDES

4.1 CCTV System Overview

ABC School operates a comprehensive CCTV surveillance system covering all campus areas including classrooms, corridors, playgrounds, parking areas, and entry/exit points. The system provides 24/7 monitoring and recording for security and safety purposes. Video footage is retained for 30 days and can be accessed by authorized personnel only.

4.2 CCTV System Details

CCTV Vendor Information

Vendor Name: SecureVision Technologies | **Product:** SecureVision NVR System v5.0 | **Total Cameras:** 64 cameras (1080p HD) | **Storage:** 8TB NVR with cloud backup | **Recording:** Continuous 24/7 | **Retention:** 30 days | **Support Plan:** Annual Maintenance Contract

4.3 CCTV Camera Locations

Primary Building - 16 Cameras

Entrance hall (2) | Main corridor (3) | Classrooms (6) | Staircase (2) | Parking area (3)

Secondary Building - 16 Cameras

Entrance (2) | Corridors (4) | Classrooms (6) | Laboratory (2) | Staircase (2)

Sports & Common Areas - 16 Cameras

Playground (4) | Sports complex (4) | Cafeteria (3) | Library (2) | Admin office (3)

Perimeter & Security - 16 Cameras

Main gate (3) | Secondary gate (2) | Boundary walls (4) | Parking lot (4) | Loading area (3)

4.4 CCTV System Features

Recording & Storage

Resolution: 1080p HD (1920x1080) | **Frame Rate:** 30 fps | **Compression:** H.264 | **Storage:** 8TB NVR with cloud backup

Retention: 30 days continuous recording | **Backup:** Automatic daily backup to cloud

Video Access & Playback

Access: Web portal and mobile app | **Authorization:** Role-based access control

Playback: Search by date/time, camera, and event | **Export:** Download video clips in MP4 format

Motion Detection & Alerts

Features: Motion detection on all cameras | **Alerts:** Email and SMS notifications for motion events

Recording: Automatic high-priority recording on motion detection

4.5 CCTV Access & Authorization

- Principal: Full access to all cameras and recordings
- Security team: Access to perimeter and gate cameras
- IT administrator: System management and maintenance access
- Authorized staff: Limited access to specific areas as needed
- All access is logged and monitored for security

4.6 CCTV Maintenance & Support

Maintenance Type	Frequency	Contact
Preventive Maintenance	Quarterly	maintenance@securevision.in
Camera Cleaning	Monthly	In-house IT team
Storage Verification	Weekly	IT administrator
Emergency Support	24/7	+91-22-XXXX-XXXX

SECTION 5 · VENDOR SERVICES Q&A KNOWLEDGE BASE

Q: How do I access the school ERP system?

A: Access the ERP through <https://erp.abcschool.edu.in> using your username and password provided by the IT Department. Two-factor authentication is required for security. Mobile app is also available for iOS and Android devices.

Q: What should I do if I forget my ERP password?

A: Click on "Forgot Password" on the login page. Enter your username and registered email. A password reset link will be sent to your email. Follow the link to create a new password. If you don't receive the email, contact IT support.

Q: How do I mark student attendance in the ERP?

A: Log in to the ERP, go to Attendance Management module, select the class and date, mark attendance for each student (Present/Absent/Leave), and save. Attendance can also be marked using biometric devices at entry points.

Q: How do I generate a student report card in the ERP?

A: Go to Academic Management module, select the class and term, enter marks for all students, and click "Generate Report Cards". Report cards can be printed or sent to parents via email/SMS.

Q: How can parents track the school bus in real-time?

A: Parents can download the SafeRoute mobile app (iOS/Android) or access <https://transport.abcschool.edu.in>. Log in with your credentials to see real-time bus location, estimated arrival time, and receive pickup/dropoff notifications.

Q: What should I do if the bus tracking app is not showing the bus location?

A: Check your internet connection. Restart the app. Ensure GPS is enabled on your phone. If the issue persists, contact SafeRoute support at +91-98765-43210 (24/7 hotline) or support@saferoute.in.

Q: How do biometric attendance devices work?

A: Students place their finger on the fingerprint scanner or face the facial recognition camera at entry points. The device recognizes them within 1-2 seconds and automatically records attendance in the system. Attendance data syncs with the ERP in real-time.

Q: What should I do if the attendance device doesn't recognize my fingerprint?

A: Clean your finger and try again. Ensure proper placement on the scanner. Try using a different finger (the device has 10 fingerprints enrolled per person). If the issue persists, contact IT support or use facial recognition instead.

Q: How can I access CCTV footage if needed?

A: Only authorized personnel (Principal, Security team, IT administrator) can access CCTV footage. Submit a request to the Principal with specific date, time, and location. Footage is retained for 30 days and can be exported in MP4 format.

Q: How long is CCTV footage retained?

A: CCTV footage is retained for 30 days in the NVR system and automatically backed up to cloud storage. After 30 days, old footage is overwritten. For specific incidents, footage can be exported and archived separately.

Q: Who has access to CCTV footage?

A: Only authorized personnel have access to CCTV footage: Principal (full access), Security team (perimeter cameras), IT administrator (system management), and authorized staff (specific areas as needed). All access is logged and monitored.

Q: What is the ERP support contact information?

A: ERP vendor support: Edusmart Solutions Pvt. Ltd. | Email: support@edusmart.in | Phone: +91-22-XXXX-XXXX | Support hours: 24/7 for critical issues, 9 AM-6 PM for general support

Q: What is the transport software support contact?

A: Transport software vendor: SafeRoute Technologies | Emergency hotline: +91-98765-43210 (24/7) | Email: support@saferoute.in | Technical support: 9 AM-6 PM (Mon-Fri)

Q: What is the attendance device support contact?

A: Attendance device vendor: BioSecure Systems India | Email: support@biosecure.in | Phone: +91-22-XXXX-XXXX | Support hours: 9 AM-6 PM (Mon-Fri) | Response time: 2 hours for technical issues

Q: What is the CCTV system support contact?

A: CCTV vendor: SecureVision Technologies | Emergency support: +91-22-XXXX-XXXX (24/7) | Email: support@securevision.in | Maintenance: maintenance@securevision.in | Annual maintenance contract in place

Q: How often are vendor systems maintained?

A: ERP: Monthly updates and quarterly maintenance | Transport software: Continuous monitoring and monthly updates | Attendance devices: Quarterly preventive maintenance and monthly cleaning | CCTV: Quarterly maintenance and weekly storage verification

Q: What should I do if I encounter a technical issue with any vendor system?

A: First, try basic troubleshooting (restart device, check connection). If the issue persists, contact the IT Department or the respective vendor support. Provide details about the issue, when it occurred, and what you were trying to do.

Q: Are there training sessions available for vendor systems?

A: Yes, training is available for all vendor systems. ERP training is provided by Edusmart Solutions (training@edusmart.in). Transport software training is available from SafeRoute. Contact IT Department to schedule training sessions.

Q: How is data security handled in vendor systems?

A: All vendor systems use encryption, role-based access control, and secure authentication. Data is backed up regularly. ERP and transport data are backed up daily. CCTV footage is encrypted and stored securely. Biometric data is encrypted and never shared.
