7.3 Annual Strategic Review Narrative — 2023-24

Executive Summary

Year 2 of the Strategic Plan 2022-27 has shown strong progress across four of the five pillars. The school has successfully navigated a challenging year marked by post-pandemic recovery of enrollment, inflationary pressures on operational budgets, and a competitive talent market for qualified teachers. Despite these headwinds, ABC International School Powai has delivered measurable outcomes aligned with its strategic commitments.

Pillar 1 — Academic Excellence

The academic pillar continues to deliver strong results. The 14th state ranking in CBSE schools of Maharashtra is a significant improvement from 22nd in 2021-22. The NEP 2020 implementation is on schedule, with Phase 1 (Foundational Stage) fully embedded and Phase 2 commencing in April 2024. The school has invested ₹8.4 lakh in additional Cambridge professional development, resulting in an improvement in IGCSE subject pass rates from 91.7% to 94.2%.

Pillar 2 — Digital Integration

The digital transformation agenda is proceeding well. The school's ERP system (EduVision) has been fully deployed across all administrative functions including admissions, fee management, leave, and library. The launch of the Innovation Lab in December 2024 will be a landmark milestone. Concerns remain about the pace of digital pedagogy adoption among senior CBSE faculty; a dedicated 3-day immersive training is planned for May 2024.

Pillar 5 — Staff Excellence (Risk Area)

Staff retention is the most critical strategic risk for 2024-25. The voluntary attrition rate of 13.2% exceeds the 10% target, driven largely by competitive offers from international schools and corporate training organisations. The Board has approved a retention package including a 9.5% salary revision, medical insurance enhancement, and a new performance bonus scheme. A task force has been constituted to develop a Talent Retention Strategy by 31 May 2024.

Financial Sustainability

The school's financial position remains strong. The 8% fee revision for AY 2024-25 has been approved and communicated. The projected surplus for FY 2024-25 is ■ 1.65 crore, which will contribute to the Infrastructure Development Reserve Fund. The Fund balance is targeted to reach ■ 2.5 crore by March 2025, providing a 6-month operating buffer as recommended by the Audit Committee.

SECTION 8: CHATBOT TRAINING Q&A; DATASET

The following question-answer pairs are structured for use in the school's AI chatbot knowledge base. They are derived directly from the governance documents above and represent the most commonly asked queries by staff, parents, and students regarding school governance.
